

Three Easy Steps. One Lifetime Warranty.

Tres pasos sencillos. Una garantía de por vida.

Custom's Lifetime Warranty guarantees that your installation products will be free from manufacturing defects and will not break down or deteriorate under normal usage. If a defect occurs, Custom will cover the cost of materials and labor to repair.

La garantía de por vida de Custom garantiza que los productos de su instalación estarán libres de defectos de fabricación y que no se averiarán ni deteriorarán bajo condiciones de uso normal. En caso de producirse un defecto, Custom cubrirá el costo de los materiales y la mano de obra para efectuar la reparación.

1 Prep Preparación

Determine products needed to prepare your surface.
Determina los productos necesarios para preparar la superficie.

2 Set Instalación

Determine your setting material needs.
Determinar las necesidades de materiales de instalación.

3 Grout Lechada

Choose your grout joint size and color.
Elegir el tamaño y el color de las uniones de lechada.

Example over concrete.
Ejemplo sobre concreto.

Ceramic Tile Caulk Sanded & Non-Sanded

Use where horizontal and vertical surfaces meet
Use around tubs and sinks

Calafatear para Azulejos de Cerámica Con Arena y Sin Arena

Para las uniones de superficies horizontales con superficies verticales
Para alrededor de bañeros y lavabos

This Product Contributes to
"Leadership in Energy and
Environmental Design" certification.

Este producto contribuye a la certificación "Leadership in Energy
and Environmental Design" (LEED).

POLYBLEND®

Sanded Grout For Joints 1/8" to 1/2"

Con Arena

Para uniones de lechada de
3 mm - 13 mm

Non-Sanded Grout For Joints Up to 1/8"

Sin Arena

Para uniones de lechada de
hasta 3 mm

Polyblend Grouts produce hard, durable
grout joints and are easy to use, just
add water and mix.

Las lechadas Polyblend producen uniones de
lechada resistentes y duraderas y son fáciles de usar;
basta con solo agregar agua y mezclar.

Coverage Cobertura

How much grout do I need?

¿Cuánta lechada necesito?

| PROJECT SIZE / Área del proyecto | TILE SIZE / Tamaño de los azulejos | Polyblend Sanded Grout Number of 25 lb. Bags Cantidad de bolsas de 11.34 kg. | Polyblend Non-Sanded Grout Number of 10 lb. Bags Cantidad de bolsas de 4.5 kg. |
|-------------------------------------|---------------------------------------|--|--|
| 50 sq. ft. (4.6 M ²) | 16 to 24" (405 mm) | 1 | 1 |
| 100 sq. ft. (9.3 M ²) | 16 to 24" (405 mm) | 1 | 2 |
| | 8" - 24" (203 - 605 mm) | 1 | 1 |
| 200 sq. ft. (18.6 M ²) | 16 to 24" (405 mm) | 2 | 2 |
| | 10" - 18" (254 - 457 mm) | 2 | 2 |
| | 18" - 24" (457 - 605 mm) | 1 | 1 |

Coverage applicable for grout joint widths 1/8" to 1/2" (3 to 6 mm) for Sanded Grout,
1/16" to 1/8" (1.6 to 3 mm) for Non-Sanded Grout. Amounts rounded to ensure proper coverage.
Cobertura aplicable para juntas de lechada de 3 mm a 15 mm para lechada con arena y de
lechada sin arena. 1/16" a 1/8" (1.6 a 3 mm) de ancho de lechada sin arena. Cifras
redondeadas para asegurar una cobertura apropiada.

How many square feet can I grout?

| | Polyblend Sanded Grout Sq. Ft. per 25 lb. Bag (M ² por bolsa de 11.34 kg.) | | | | | Polyblend Non-Sanded Grout Sq. Ft. per 10 lb. Bag (M ² por bolsa de 4.5 kg.) |
|--------------------|---|--------|------|--------|-------|--|
